In the reference cited above , Instruction were given to organise the temporary hospitals along with beds and other facilities in the premises of Major Government Hospitals to cater to the need of the patients who were not getting beds in the Hospitals. These should have all the facilities including Air Conditioners such that incoming patients can be stabilized and shifted to the main hospital duly allotting beds depending on availability. Further it is decided that the R & B Department shall take up construction of this additional facility in the Major Government Hospitals in consultation with the District Collectors concerned. Accordingly following instructions are issued for establishment of temporary facilities in major Government Hospitals.

1. The Chief Engineer – R & B – Buildings will take the model of the temporary COVID HOSPITAL and facilities required from the MD – APSMIDC and communicate to all SEs.
2. All the Superintendent Engineers of R & B shall obtain the requirement of the number of beds in the facility to be created at various hospitals from the District collectors.
3. Superintendent Engineers of R & B shall prepare the estimate.
4. District collectors shall issue administration sanction under COVID head such that the payment can be organized properly.
5. Superintendent Engineers of R & B will go ahead with short tendering process and take up the construction of facility as per the requirement.

6. The Chief Engineer – R & B – Buildings shall guide the SEs regarding the market rate discovered during the tender process in various Districts.

All the District Collectors, Chief Engineer R&B- Buildings, Superintendent Engineers R&B shall take immediate further action accordingly. The Collectors may use the services of any other department or organisation in the interest of speedier execution if felt necessary
