HEALTH MEDICAL & FAMILY WELFARE DEPARTMENT

Order No.95 /COVID-19/2020-21, Date: 23 .04.2021

COVID INSTANT ORDER –95

Sub: HMFWD-COVID19- establishment and running of Covid care centres- Reiterating the guidelines issued time to time in management of CCCs –reg.

Ref:-1. Covid instant order 41 dated 28.04.2020

In order to manage asymptomatic and mild symptomatic covid positive patients and to reduce the burden on the Covid hospitals (so as to enable them to provide critical care and specialty care by these Covid hospitals), Covid Care Centres(CCC)are to be established in all the districts. Detailed instructions issued during May 2020 to all the districts to establish Covid care centres with minimum of 5,000 beds in each district. The Covid care centres shall provide services to asymptomatic and mild symptomatic patients and those who cannot maintain home isolation.

Building: The district administration should identify CCC premises which have proper ventilation, proper setbacks, wide passages, proper compound wall, separate entry & exit and adequate fire safety measures. Every CCC should have adequate number of toilets, adequate area for movement of ambulance and access to road. The identified CCC should be near to the Covid hospital, and not more than 20 minute drive from CCC to Covid hospital. The CCCs should have dedicated ambulance with drivers in three shifts to shift the patients (if needed)to attached Covid hospitals.

Personnel: The District Administration should allot one dedicated district level gazetted officer as nodal officer for CCCs. Further, all the CCCs should have dedicated nodal officer(gazetted Officer) to oversee all the logistic arrangements and amenities to inmates.Every CCC should be allocated with Medical officers to work in three shifts, staff nurse/para-medicals for providing medical examination and recording of vitals of all the inmates. The dedicated sanitary staff (one for every 20 beds) should be deployed. Staff who rendered their services in CCCs may be re engaged as they are familiar to facility and nature of work.

Patient amenities: Each inmate should be given a welcome kit consisting of new bucket, mug, water bottle, new toothpaste, brush, comb, hand sanitizer, dust bin with trash covers, soap and masks. The inmates should be provided food as per menu enclosed. District administration should make necessary diet supply arrangements for food and water supply.

Triage facility: Each CCC should have triage facility with mobile x-ray, lab for complete blood picture, Pulse oximeter, BP apparatus and non contact thermometer. All the positives on reaching the CCC should be investigated for above and admitted to CCCs.

Medical management: All the patients/inmates should be examined on daily basis and the vitals to be recorded. If any patient vitals are not stable such patients to be referred to the attached Covid hospitals. The CCC in-charge nodal officer should ensure that the patient is properly transported by ambulance and admitted into Covid hospital. Such medicines can also be procured and supplied for other long term health conditions.

All the medicines required should be adequately supplied and dispensed to inmates throughout their stay in CCCs. Patients should be advised to continue the medication if they are on medical advice apart from Covid infection.

Sanitation: All the CCCs should have sanitation tie up and cleaning should be done three times in day. The sanitary staff should be provided with adequate quantities of sodium hypochlorite solution/Lysol to disinfect the premises and toilets. Required brooms and sanitary items to be procured and supplied. The sanitary staff should be provided PPEs, gloves, N95 masks and hand sanitizers as per need and medical waste disposal to be tied with biomedical waste management firms. The waste to be treated with 1% sodium hypochlorite solution before disposal.

Help desk: Every CCC should be equipped with computer, printer and internet facility and two land line telephone connections. Help Desk Managers should be positioned in three shifts at all CCCs and daily vitals to be updated.

Online management

- New CCC can be Created from JC login by using below link:
http://dashboard.covid19.ap.gov.in/covid_health/admin/
